

**Skill.ED – Raise key specialists!  
For your community, for your country, for the world.**

**Win a grant of 40.000 to develop Vocational Education in your school!**

*“At Kronospan Foundation, our mission is to actively serve people and the communities in which our company operates, by getting involved in projects that promote social, economic and cultural development. In this way, we want to focus especially on what we believe is the moral foundation of a healthy society – protecting and preserving the natural environment, and providing children with the educational opportunities that are required for success in life”, Dr. Oana Bodea, President of Kronospan Foundation.*

The activity of Kronospan Foundation promotes excellence, but also everyone's access to education and social inclusion. At this time when education and children need, perhaps more than ever, special attention from us, Kronospan Foundation thinks ahead, but remains committed to those close to us and their immediate needs – because a helping hand is all the more valuable as it comes exactly when it is most needed.

In order to support Vocational Education in the countries where the company is present, the Kronospan Foundation launches a new project and offers 3 grants of 40.000 in each participating country.

**Skill.ED** is a competition of projects and the first edition is organized in Bulgaria, Poland and Russia. The participants are encouraged to submit projects to develop the vocational education by any means, such as (but not limiting to): equipping a laboratory, purchasing specific equipment, setting up specialized classes, offering scholarships for students, organizing internships etc.

To submit a project the applicants will have to fill in the Application Form online available from 1<sup>st</sup> of November on [www.kronospanfoundation.org/skilled](http://www.kronospanfoundation.org/skilled). The deadline to apply is 31<sup>st</sup> of December 2021 and the winners will be announced on 21<sup>st</sup> of January 2022.
