

**Skill.ED – Raise key specialists!
For your community, for your country, for the world.**

“At Kronospan Foundation, our mission is to actively serve people and the communities in which our company operates, by getting involved in projects that promote social, economic and cultural development. In this way, we want to focus especially on what we believe is the moral foundation of a healthy society – protecting and preserving the natural environment, and providing children with the educational opportunities that are required for success in life”, Dr. Oana Bodea, President of Kronospan Foundation.

The activity of Kronospan Foundation promotes excellence, but also everyone's access to education and social inclusion. At this time when education and children need, perhaps more than ever, special attention from us, Kronospan Foundation thinks ahead, but remains committed to those close to us and their immediate needs – because a helping hand is all the more valuable as it comes exactly when it is most needed.

In order to support development of education, in 2021 the Kronospan Foundation has launched the project “Skill.ED”. The first edition was developed as a competition of projects and it offered 3 grants of 40.000 EUR each.

Starting with 2022, the Skill.ED Project became an open grant to support general, vocational and technical education in the selected countries, regardless of the field. The maximum value of the grant for each project was of 10.000 EUR. The projects received include a different range of activities and actions, such as: equipping a laboratory, purchasing specific equipment, setting up specialized classes, offering scholarships for students, organizing internships etc.

Participating countries in 2022:

Austria, Belarus, Belgium, Bulgaria, Croatia, Czech Republic, Denmark, France, Germany, Hungary, Italy, Latvia, Lichtenstein, Lithuania, Luxembourg, Poland, Romania, Russian Federation, Serbia, Slovak Republic, Spain, Switzerland, Turkey, Ukraine, United Kingdom, United States

Skill.ED 2022 offered funding to 32 projects, with a total budget of 285.000 EUR.
